# Connect-the-Dots with Dottie Dalmatian

---

*This book belongs to*

**Hi, my name is Dottie and I'm a dalmatian.**

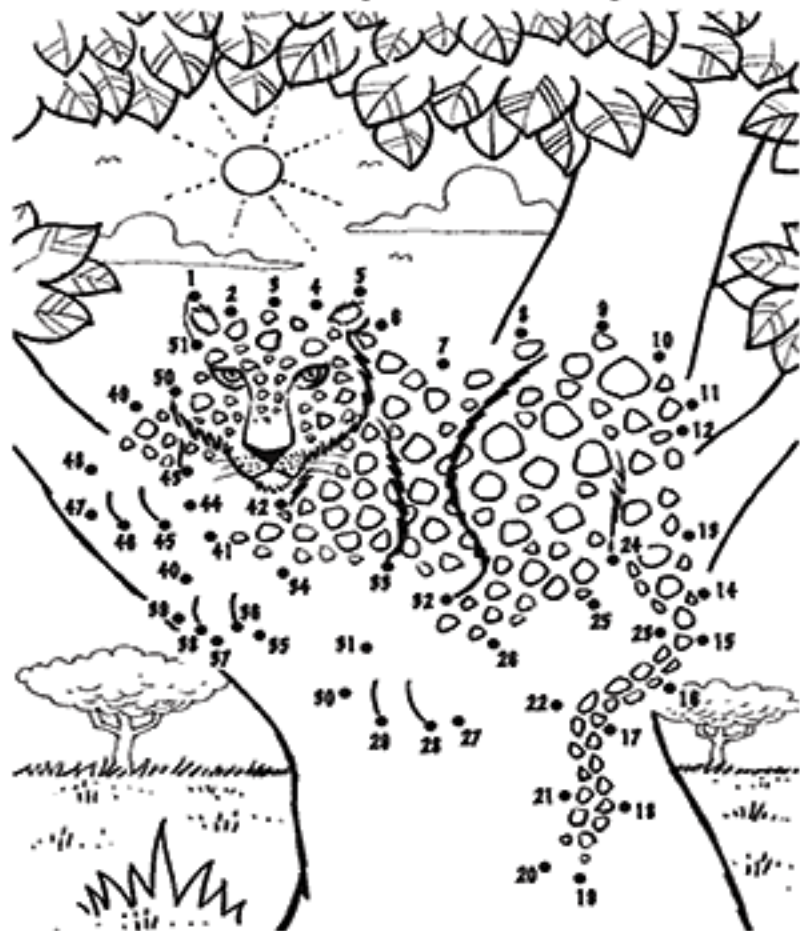

**A dalmatian is a kind of dog who wears  
polka dots every single day.**

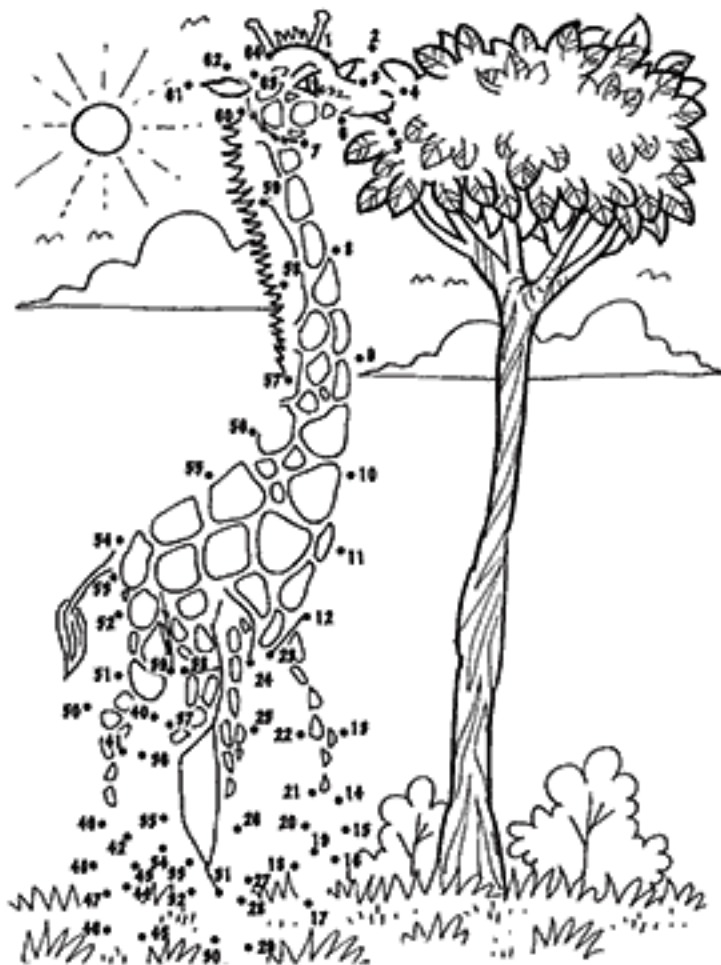

**One day I was playing connect-the-dots  
and I thought about all the other animals  
that have lots of dots and spots.**

**Leopards are big jungle cats that live in Africa and Asia. They have lots of spots.**

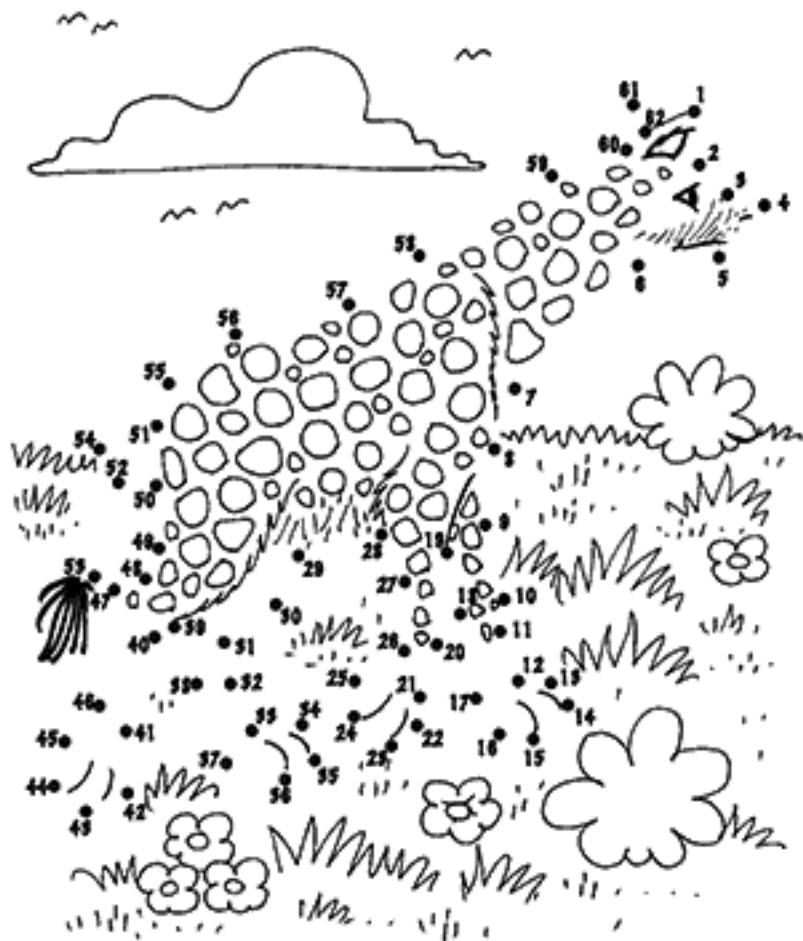

**Other cats have spots, too.  
The jaguar lives in the forests of South America.**

**Giraffes kinda have spots –  
but they are not completely round.  
What other animals have spots or dots?**

**I know! Spotted hyenas have spots.**

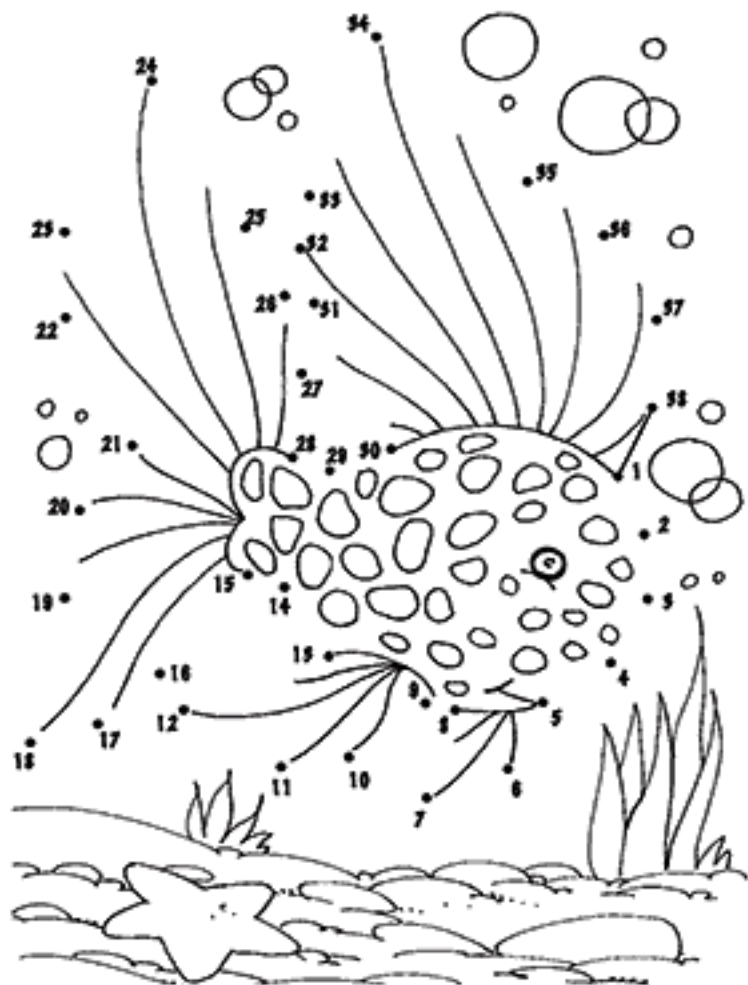

**Lots of birds have spots and dots like spotted owls and doves and sandpipers.**

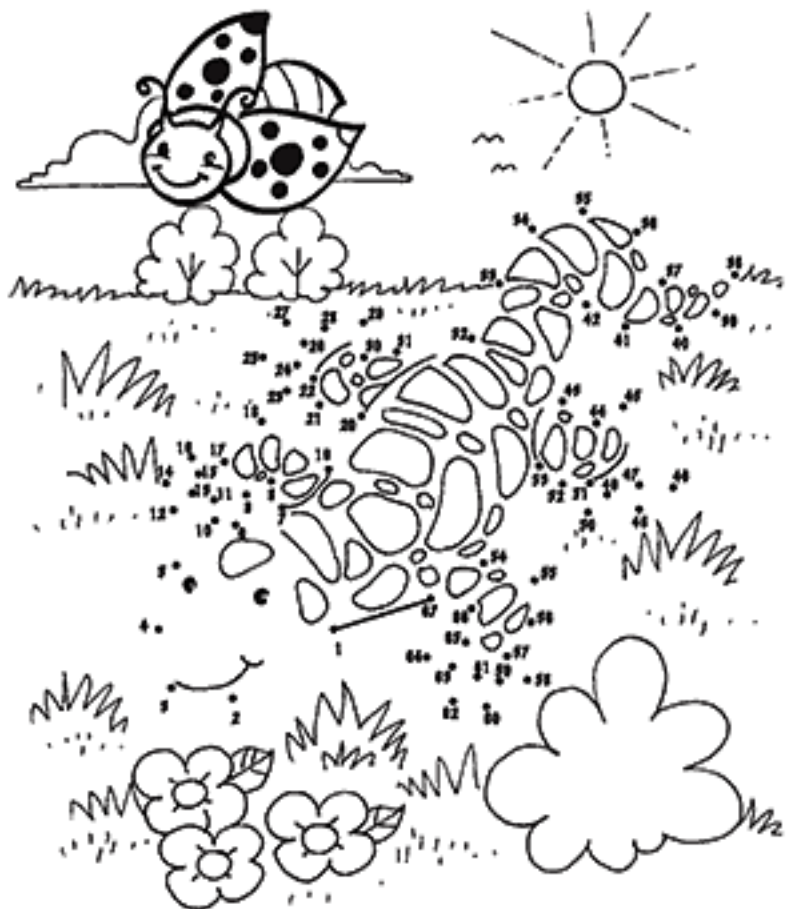

**Some skunks have spots along with their black and white colors.**

**Even fish are spotted  
- from goldfish to bass to sharks!**

**Snakes and salamanders and insects  
are spotted. Make a wish on a ladybug  
and she'll fly away home.**

**It's fun to play connect-the-dots and it's cool to learn about animals with lots of dots and spots.**
